

Probationary Firefighter I Job Description

Nature of Work

This is a skilled position for training in Emergency Medical Service (EMS) and fire fighting operations.

Duties include training and participation in the operation of fire fighting apparatus, EMS operations and the performance of hazardous duties under emergency conditions. Work entails combating, extinguishing, and preventing fires, EMS operations and in the operation of routine custodial maintenance of department equipment, apparatus, and quarters.

An employee of this class is responsible for the protection of life and property through fire fighting, rescue, EMS and related duties. Work may require strenuous exertion under such handicaps as smoke, fire, heat, and cramped surroundings. When required, to participate in drill and study programs and to perform routine duties in the care and maintenance of station equipment, apparatus, buildings, and grounds. Work is normally performed under close supervision in accordance with established policies and procedures. Assignments are given by a superior officer both in emergency incidents and at the station. Work is usually reviewed for adherence to standards and through reports and accomplishment of desired results.

Illustrative Examples of Work

(Any one position of this class may not include all duties listed, nor do listed examples include all duties that may be found in positions of this class.)

Initial work involves learning the job by attending extensive and in-depth training on the following areas:
